Art Unit: 2123

1. This communication is in response to Applicants' Amendment A dated 20 September 2004. Claims 1-22, 36, 38, 42, and 46 were amended; claims 52-56 were added. Claims 1-22, 36-44, 46, and 52-56 are pending.

Claim Objections

2. Claims 52-56 are objected to because Amendment A is not fully responsive to the First Office Action on the Merits, because of the following omission(s) or matter(s):

2.1 The Amendment A adds new claims 52-56 but the "Remarks" appearing on pages 13-17 contain no attempt to point out the patentable novelty of the newly-added claims. See MPEP §§ 714.04 and 714.02, and 37 CFR 1.111(b), which states in-part (emphasis added):

In order to be entitled to reconsideration or further examination, the applicant or patent owner must reply to the Office action. The reply by the applicant or patent owner must be reduced to a writing which distinctly and specifically points out the supposed errors in the examiner's action and must reply to every ground of objection and rejection in the prior Office action. **The reply must present arguments pointing out the specific distinctions believed to render the claims, including any newly presented claims, patentable over any applied references.**

Claim Rejections - 35 U.S.C. § 112, Second Paragraph

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 2123

3.1 Claims 55-56 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicants regard as the invention.

3.2 Regarding claim 55, the term “relatively coarse triangulation” is a relative term which renders each claim indefinite. This term is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.

3.3 Regarding claim 56, this claim is rejected based on its dependence to independent claim 55.

Indication of Allowable Subject Matter

4. Claims 1-22, 36-44, 46 are allowed.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to Applicants' disclosure.

6. Applicants' amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2123
